- **Confirm** meetings with participants, organizer and room suppliers
- **Empower** travelers to make the right decision when considering travel or telepresence

Multipurpose telepresence

## Overview

*Sabre® Virtual Meetings* is the industry's first, patent-pending solution for telepresence room distribution and scheduling. This new platform leverages Sabre's history of success and expertise at delivering easy-to-use tools to simplify complex reservation processes.

Emerging collaboration tools like telepresence are a cost-effective way for organizations to connect more frequently. The real-time, visual nature of telepresence makes these meetings significantly more collaborative and engaging than alternatives such as conference calls, webcasts, emails or even older video conferencing systems. Telepresence provides multiple options for video conferencing, from immersive high-definition experiences to multi-purpose meeting rooms with single or double screens.

Until now, scheduling telepresence meetings was a time-consuming and difficult task. Limited visibility for room availability, time zone challenges and compatibility issues between types of telepresence units and data networks made scheduling challenging.

*Sabre Virtual Meetings* eliminates the hassles of telepresence booking through a simple, online reservation system.

## How it works

*Sabre Virtual Meetings* provides one easy location for employees and travel agents to shop and schedule telepresence rooms across the globe. Room availability is shown in real time and includes both public and private corporate rooms. *Sabre Virtual Meetings* is completely GDS agnostic, and is easily accessed from tools like *GetThere®*.

Corporations and travel management companies can now maximize their investment in telepresence and benefit from multi-site meetings across their ecosystem of customers, suppliers, and partners.

## Key Benefits for Corporate Meetings

- **Simple** – Search, book and go to your meeting. It's that easy
- **Comprehensive** – Search a robust catalog of telepresence rooms with detailed information
- **Relevant** – Shop for rooms that are available for each user and network compatible
- **Global** – Schedule private and public video conferencing rooms throughout the world

## Key Benefits for Travel Management Companies

- **Efficient** – Create value by offering both travel and telepresence options
- **Diversify** – Add key collaboration management tools to existing product offerings
- **Dynamic** – Provide *Sabre Virtual Meetings* to end users or on an agent desktop such as Sabre Red Workspace

## Experience Even More from GetThere

*Sabre Virtual Meetings* is just one innovative feature comprising the complete *GetThere* corporate online booking system. A majority of the FORTUNE 200 and the BTN Corporate Travel 100 rely on *GetThere* to streamline processes, improve supplier and contract management, and achieve ongoing and sustainable savings in corporate travel and collaboration spend. Contact your *GetThere* representative by calling 1-800-850-3906 or visiting [www.getthere.com](http://www.getthere.com) to learn more.
