Overview

Thousands of corporations worldwide, including a majority of the BTN Corporate Travel 100, experience the proven ROI that only *GetThere*[®] can deliver. As the world's leading travel and collaboration management solution, *GetThere* empowers managers and employees alike to make smart collaboration decisions that bolster the bottom line. Each year, millions of business travelers use *GetThere* to book and manage their business trips and meetings. Experience convenience for your travelers, control for you and cost-savings for your company.

Comprehensive Solutions

GetThere is a complete travel, meetings and expense management solution. From an initial travel search and booking to expense submission, we manage it all. Our solutions help corporations manage the parts of their business that make a significant impact on the bottom line.

Travel and collaboration is the second most controllable expense for organizations. Therefore, how you manage your collaboration options – from travel, to meetings, to social networking and to telepresence – is the real secret to savings.

GetThere Travel Management

The most modern and stable booking platform in corporate travel, *GetThere* maintains 99.96 percent proven system uptime while driving more than 12 million bookings annually. We're available whenever your users need us.

- Convenient online access to air, car, hotel, rail reservations and more 24/7
- Award-winning, easy-to-use leisure interface
- Travel policy and preferred supplier compliance

GetThere Collaboration Management

Collaboration is at the core of what it takes to maintain and grow your business. Collaboration takes many forms — traditional business travel, virtual meetings, even networking — and *GetThere* allows you to manage each of these.

- *Sabre*[®] Virtual Meetings
- *GetThere* Meetings Management
- *GetThere* Corporate Community
- *GetThere* Demand Management

Expense Management Solutions

GetThere offers integrated travel and expense management solutions that help corporations realize significant business benefits including process improvement, enhanced policy compliance and cost savings.

- Seamless online expense reporting (automated submission, approval and audit)
- Automated cost code and policy validation, and payment to card providers and employees
- Comprehensive data analytics and reporting based on expense data

Did You Know?

From 2000-2011, Business Travel News annually bestowed a *GetThere* customer with one of its highest honors – the BTN Travel Manager of the Year Award.

GetThere Air Shopping

As a fundamental piece of the booking experience, *GetThere* offers superior air shopping capabilities. We have improved search response times by 50 percent with our new technology platform while also increasing volume from *Sabre*, *Apollo* and *Galileo* customers.

GetThere Hotel Shopping

Our hotel web page design allows travelers to search several options, such as leisure travel sites, and still comply with corporate policy and preferred partners when selecting a property. Additionally, *GetThere* offers map-based shopping, live hotel availability and traveler reviews.

GetThere Car Shopping

Travelers seeking to rent a car can search and compare multiple vehicles on one screen and select round trip or one-way, airport or off airport locations, different drop-off points, car type and special options.

GetThere Ground

GetThere Ground allows business travelers to book and pre-pay executive car services online in real-time, including limos, executive sedans and taxis. Employees can view and compare these point-to-point services on a single screen, and book any option with a corporate credit card. *GetThere Ground* is available as a fully customizable program and via a set network of *GetThere* preferred suppliers.

GetThere Rail

GetThere delivers valuable content to our North America and EMEA customers, offering Amtrak and Via Rail in Canada, SNCF in France, Trainline in the UK, Deutsche Bahn in Germany and SNCB in Belgium, The Netherlands and Luxembourg, as well as additional rail providers throughout Europe with the help of SilverRail Technologies.

Sabre Virtual Meetings

Sabre Virtual Meetings a global reservation system for booking and scheduling public and corporate-owned high-definition video conferencing rooms. Coming soon to *GetThere*, the system will allow users to view conference room availability in real-time, review rates and features, and book meetings across geographic regions. Travel buyers will be able to reserve and schedule video conferencing rooms at the same time they book flights and hotels within *GetThere*.

GetThere Expense Integration

GetThere works with robust expense reporting solutions so customers can derive the most value from their *GetThere* investment and leverage products from our leading partners globally, including SAP, IBM and more.

GetThere WebConnect

GetThere currently offers non-GDS web content, including access to more than 90 airline and rail carriers, through partnerships with Agentware and TraveIFusion.

GetThere Ticket Manager

Ticket Manager empowers your users to do more online. Unused Ticket Messaging alerts travelers of available unused tickets as they shop for a trip. Ticket Manager Exchange is an intelligent, fully automated solution that allows corporate travelers to exchange a ticketed reservation online.

Travel Policy Engine

A rules-based, enterprise-level engine that gives policy administrators greater control, flexibility and configuration options to establish policy rules and requirements. With easy-to-use templates and a sophisticated decision engine behind the scenes, administrators can build complex and unique rules that suit their specific program.

GetThere Mobile

GetThere replicates your corporate travel site on a handheld device, allowing travelers to shop and book new air and hotel reservations, view and share travel plans, check flight status in real-time and quickly contact your corporate travel agency. *GetThere Mobile* supports your policy and preferred suppliers. *GetThere* also offers access to *TripCase*, a free, downloadable post-booking travel app. *TripCase* gives travelers itinerary management capabilities, online check-in, flight status and more.

GetThere Demand Management

The *GetThere Demand Management Suite* is a bundle of global products, services and pricing that guarantees corporate customers the ability to reduce travel demand and expenses through increased control, accountability and target messaging.

GetThere Personas

Our industry-first personas approach provides customized views within *GetThere* for different types of users and the features that are most important to them. The most critical pieces of information for each user are prominently displayed on homepages to drive ease-of-use and adoption. *GetThere* has created customized travel portals for the traveler and travel arranger with more portals coming soon.

GetThere Services and Stability

GetThere maintains 99.96 percent system uptime, meaning our products are nearly always available for you and your travelers. With our enhanced design in place, we can confidently build onto an infrastructure equipped to handle huge levels of customer traffic while remaining flexible enough to serve every customer's needs.

Did You Know?

GetThere is the solution of choice for 7 out of 10 of the world's most innovative companies.¹

GetThere Mobile

¹Ten Most Innovative Companies list compiled by Booz & Company winter 2010. *GetThere* customers include Apple, Intel, 3M, Toyota, Samsung, P&G and GE.

The GetThere Difference

Continuous Innovation

As the first corporate online booking platform, *GetThere* has long been the unrivaled leader in online collaboration. We help you stay ahead of the curve with cost-saving, efficiency-enhancing features built atop the industry's most modern and stable platform. We drive more than 12 million travel transactions annually with system uptime at 99.96 percent, the highest in the industry. Our customers average 80¹ percent online adoption (with top customers exceeding 90 percent), well above the industry-average of 58 percent².

Unrivaled Expertise

With more than 300 professionals worldwide, including leadership in every global region and 100 professionals solely dedicated to providing you hands-on support, *GetThere* offers you unsurpassed levels of service and expertise. On a daily basis, you'll work closely with an experienced Customer Success Manager and a Site Manager to meet your every need. You'll also be privy to the industry's most knowledgeable travel community – your fellow *GetThere* customers.

Global Reach

Corporations are more zealous than ever to move their online workspaces abroad. *GetThere* possesses the industry's widest global reach, operating in 93 countries and available in 15 user-selected languages. Our travel experts are strategically located worldwide, providing regional leadership, knowledge of the local market and steady guidance for our customers.

Infinite Choice

GetThere is flexible. Our customers can configure their sites from 3,000 options and have the opportunity to work with any travel management company, integrate with leading expense solutions and use multiple types of upload processes. Business travelers appreciate the ease-of-use and efficiency of *GetThere*, which is designed after popular leisure travel and social networking sites and built on best practices. Users get the most content available anywhere, the ability to compare multiple options on a single screen and consider travel alternatives while shopping for a trip.
