- Prepaid parking
- Localization
  - Multi-language
  - Multi-currency
  - Dates and times in local destination
- Integrated details in a PNR
- Online reporting

### Overview

*GetThere* Ground allows business travelers to book and pre-pay car services online in real-time, including taxis, shuttles, parking, and chauffeured sedans and limos. Employees can view and compare these point-to-point services on a single screen, and book any option with a corporate credit card.

*GetThere* Ground gives travel managers the power of cost control and visibility into their ground spend. *GetThere* makes managing ground suppliers and contracts easy by providing a pre-screened supplier network and discounted rates – at no additional cost.

### How it works

Travelers and arrangers have instant online access to taxi, shuttle, parking, sedan and limo reservations in the same place they already go to for airline, hotel and rental car bookings. Travel managers can display rates from lowest to highest, promote preferred ground suppliers at the top of results and display their negotiated rate in lieu of the *GetThere* discounted rate. Reservations display in a traveler's itinerary once booked, with the option to change or cancel.

### Preferred vendor network

*GetThere* Ground consists of a network of preferred vendors offered exclusively and free of charge to *GetThere* customers. Corporate travelers can access discounted rates all over the world for ground transportation and parking services. *GetThere* has vetted a select group of ground suppliers based on their superior reputation, global content and outstanding safety records. *GetThere* Ground is a compelling option for companies that do not have negotiated rates with ground suppliers or want to enhance their existing program with more options, greater cost savings and management controls.

### Key features

- Reserve taxis, shuttles, parking, and chauffeured sedans and limos online from anywhere in the world 24/7 with a corporate credit card
- Compare rates for all vehicle types (limo, sedan, taxi) and multiple vendors on a single screen
- Reserve off-airport parking
- Preload corporate reference points and save frequently used addresses
- Shop point-to-point within a local area or shop airport transfers for business travel
- Use travel policy, preferred vendor status and negotiated pricing
- Create and enforce travel policy by applying rights to individual travelers, divisions, subsidiaries and locations

### Company benefits

*GetThere* Ground gives companies the opportunity to monitor, manage and reduce spend associated with today's ground services. Employees are able to price compare as well as choose from a list of company preferred vendors. Moving these transactions online and to a credit card form of payment gives companies the ability to track and manage ground services expenditures.

### Travel manager benefits

As part of your existing online corporate travel technology, *GetThere* Ground provides convenient tools to ensure your travel program is a success. Leverage your existing preferred vendors and negotiated rates or take advantage of *GetThere's* buying power through our Preferred Network, and even control which ground transportation services are available to different users. You can also track your program's ground performance with reporting.

### Traveler benefits

For travelers, it's flexibility online and convenience on the road. Easy access to multiple car service and parking options is at their fingertips. Employees can price compare and pay for these services at the time of booking, reducing hassle at the airport.

### Experience even more from GetThere

*GetThere* Ground is just one innovative product comprising the complete *GetThere* travel and collaboration solution. A majority of the BTN Corporate Travel 100 rely on *GetThere* to streamline processes, improve supplier and contract management, and achieve ongoing and sustainable savings in corporate travel and collaboration spend.
